

I'm writing today to report a total assassination of my  
character currently underway and orchestrated by Defendant  
Federal Reserve Bank of New York, the NYPD and the Prince  
William Police, to delay me during my HSI responses by  
going the postal services, USPS in Prince William County but also  
by accusing me of assaulting PWC police when this was the second time they arrested me.

Fast forward 11 months, on 7/16/2018, just a few days ago, Plaintiff went to a new groceries store in the neighborhood called Vegman. at the Groceries store Plaintiff, a devoted Christian who believes in the Second Coming of Jesus Christ of Nazareth noticed a homosexual cashier touching and handling his food which is an extremely offensive behavior for people of Faith when certain principles are not being protected.

Plankiff spoke up about the gay cashier and indicated to the store management that it was a major issue for Plankiff to

if there are homosexual nonproleting food because of the number of incidents reported but mostly because of religious principles.

The Wegman Security guard started following plaintiff on the parking garage. Plaintiff approached them and asked them why he was being followed as plaintiff was followed a few days prior by similar individuals when responding to legal proceedings with the Southern District of NY.

The Wegman security officers continued following plaintiff until plaintiff arrived home and put his food on the side and went to the bathroom to take a quick shower so I can enjoy a good meal after a quick shower.

Before plaintiff removed his clothes, plaintiff heard a ring at the door and decided to see who it was and it turns out this time it was the police. Plaintiff decided to talk to the police hoping they will explain to him why plaintiff is being followed EVERYWHERE but the police instead already had a yellow laser Gun pointed at plaintiff's face. Plaintiff felt under attack and targeted once again by the same police and he remembers plaintiff was targeted in NY on March 11<sup>th</sup> 16-CV-14130 and on August 4<sup>th</sup> 2017 in plaintiff's garage where plaintiff was assaulted and had to plea guilty to misdemeanor on top of it.

This time the 6-9 police officer broke the door with a warrant and moved into plaintiff's bathroom like a SWAT team, beat plaintiff, kicked plaintiff, broke plaintiff's right knee.

re-injured plaintiff. Left shoulder and several plaintiff body with bruises and marks resulting for punches and kicks from the SWAT Team of Prince William Police Office. He entered plaintiff bathroom to arrest plaintiff.

The Prince William County Police SWAT TEAM-LIKE Unit men dragged plaintiff out of his bathroom at his home and started searching plaintiff who was half naked by touching plaintiff genital in an extremely inappropriate manner as if they were trying to make plaintiff feel rape & fear for his safety.

Plaintiff was then brought to the Prince William County Manassas Regional Adult Detention Center where plaintiff has been locked up in a maximum security unit without being able to step out. Plaintiff is in prison again for the second time in 11 months for the same accusations that are all manufactured and aimed at destroying plaintiff life as plaintiff indicated in his 5<sup>th</sup> amended complaint for 16-cv-636 or plaintiff other lawsuit which is also related. This even if plaintiff didn't write this same letter for 16-cv-4430 as plaintiff hope this letter can be used for both cases as they are all related to these incidents here in VA.

Plaintiff is back with limited resources to write, call or interact with his own family. Plaintiff Court date is set for 8/21/2018 at 11:30 AM and it's only then that plaintiff will know more about why plaintiff was arrested for complaining about or

"gay cashier" or for trying to take a quick shower before lunch. The Prince William County Police assaulted plaintiff it is now claiming that it is plaintiff who assaulted them when all the evidence suggest plaintiff was just rest taking care of his daily needs and activities when the Prince William County Police went out of their way and this for the second time in just 11 months when plaintiff did not commit a crime. Plaintiff had every right to complain about the gay cashier on religious grounds without being targeted by Wegman groceries stores and jailed because I'm not a gay man as the Wegman store are trying to promote homosexuality.

Plaintiff is begging this court to shut down the current accusation against plaintiff as part of 16-CV-636 and 16-CV-44 so that plaintiff does not have to have this many different lawsuits and bring these charges from Prince William County to an end as they ask accumulating bogus claims against plaintiff to create a large sentence that is based on complete alienation of facts to accuse plaintiff of an assault he was the victim of in his own bathroom. And this after trapping plaintiff with the same law loophole just 11 months prior when plaintiff was assaulted by Prince William County police for the first time. This time is different because they managed to give "misdemeanor charges to plaintiff" months ago and may be successful converting them into felonies when in both cases plaintiff didn't do anything wrong, was cooperative but ended up being abused by the system as it's looking like this is what defendant is trying to do, sabotaging plaintiff so that plaintiff cannot meet

is obligations on cases 16-CV-636 and 16-CV-4430 to insure the process can follow it's course when just a few weeks go on in front of the court Defendant has demonstrated it's ability to ~~compromise~~ <sup>forest</sup> USPS as well as UPS services to disrupt plaintiff TSS responses and timing.

Plaintiff has not been able to leave freely for so long plaintiff must wait for these litigations to end but most importantly plaintiff hope is for the Southern District of NY to reject his new charges of "Obstruction Of Justice" and "Assault on police officer" to be dismissed as baseless since no justice was obstructed and no police officer was assaulted.

Plaintiff is hoping to be compensated for the physical and mental torture they have been serving plaintiff for the past years following and harassing plaintiff for no reason and trying to kill plaintiff with their Taser gun, trying to make plaintiff "Go Crazy" so they can shoot plaintiff and claim "self defense" as the NYPD did as described in 16-CV 4430.

Plaintiff wanted to report this new incident along <sup>with</sup> the USPS ~~and~~ <sup>and</sup> ~~delays~~ <sup>delays</sup> caused by Defendant in order to see if the court can protect Plaintiff from these Monstrous Jewish acts that is aiming at enslaving the entire human race through ~~the~~ <sup>the</sup> ~~banking~~ <sup>banking</sup> practices designed to enslave the whole world and redefine freedom in a way that will put the human race on path to regression.

Plaintiff is also writing this letter in the hope the court will have a full understanding of the circumstances defendant has been putting plaintiff through. Also, if plaintiff is delayed in a response please be patient as plaintiff does not know what exactly the charges against him mean much less how things will play out, ~~in~~ ~~of~~ the Southern District of New York cannot intervene here and stop defendant's continuous harassment, targeting and attacks of plaintiff who is just a computer scientist who has never done anything wrong to anyone. Defendant is a monstrous sect that has killed probably millions of people like plaintiff and its founding in 1913 in the name of white supremacy or other bankrupt and ~~Nazi~~ ~~inspired~~ ideologies against people that aren't white or women or now straight people like plaintiff who is now being harassed because plaintiff is straight. Defendant New World Order shaping up in front of us is really the end of the world.

Plaintiff is the second Coming of Jesus Christ of Nazareth and would own 100% of the Federal Reserve System in order to undo the damages caused by the Rothschilds and their banking mafia designed to enslave the world.

Plaintiff is the only person able to fix this situation, the middle east, North Korea and the world just by making very easy and needed changes that the current regime who owns the Federal Reserve System is not willing to make as they go against their interests and is too good for the larger public in their minds.
